
Logging in Difficulties

Posted by admin - 2006/04/16 21:31

If any users are having difficulty logging in please let me know by emailing registrations@thewesternshop.com

There are currently eleven (11) members who have not confirmed their registration by following the link sent to them.

If you do not confirm your registration you will not be able to log-in and your account will eventually expire. This ensures attempts to register with a false email do not allow access.

If you are unable to login for the very first time try using the 'Lost Password?' link in the login area. If this fails it will probably be because you have not confirmed your account. Check your inbox for the email.

It's title is:

TheWesternShop.com-Your Registration is Pending Approval

If you do not have it you will have to complete the registration process again.
