## No Images in Classified Ads?

Posted by admin - 2006/03/18 21:01

---

If you do not see the images here on the Classifieds, you may have 'AD BLOCKING' software installed on your computer (Norton Ad Blocker, Adblock etc). Make sure they are not blocking images served from a folder called '/ads' as our classified ads are held in a folder called 'ads' and this will cause the problem. I will try and rectify this.

This has now been rectified. Our classified ads should not cause a problem with ad blocking software...but if it does please let me know.
